The Milesburg Borough & Water Authority are working together to better aid the community and save tax dollars. Water board members alongside the Milesburg Borough council have entered into a shared employee agreement in which both entities, while retaining their current employees, will collaborate & discuss upcoming projects to assist each other when needed. With the goal in mind to enhance overall quality and speed of service and improve public availability, a joint personnel committee will be established with members of both entities to continue collaboration and oversee the reimbursement of hours which will take the place of hiring additional staff.
